linefill™

All-in-one wrinkle filler and lip plumper

For an attractive and well-rested appearance

- The development of wrinkles is the classic early sign of aging.
- One of the factors of wrinkles appearance is the loss of subcutaneous fat.

linefill™, by stimulating the body's natural mechanisms, increases the number and size of adipocytes replacing the lost volume

linefill™ is a natural and safe alternative to the most demanded anti-aging surgeries:

- Reduces the visible effects of aging: wrinkles and loss of facial volume.
- Restores facial contours for an overall improved appearance.
- Plumps lips for a youthful appearance.
- Improves skin hydration, smoothes its texture and blurs blemishes.

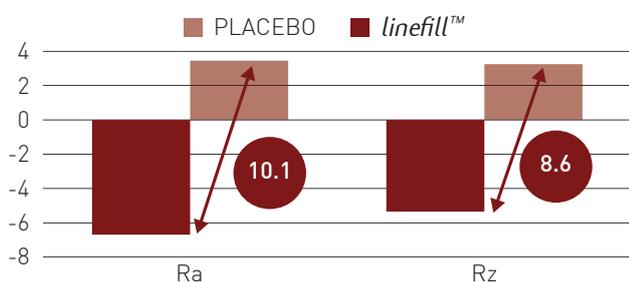

linefill™ is a natural active obtained from seeds of sesame (*Sesamum indicum*), a plant native to Ethiopia.

It is a fraction rich in sesamin, which belongs to a group of compounds called lignans.

In vivo efficacy

41 female volunteers between 45-65 years old. Two panels: 20 applied *linefill™* (2%) on the face twice a day, and 21 applied the same formulation without active (placebo). Measurements taken at D0 and D28, and the results are vs. placebo.

● Skin microrelief

linefill™ improves the skin microrelief:

- Ra (average roughness) by **10.1%**.
- Rz (mean of 5 max. peaks and 5 min. valleys) by **8.6%**.

In vivo efficacy

● Nasolabial fold

linefill™ reduces by a **7.8%** the volume of the nasolabial fold.

Other results:

- Upper lip wrinkles:
 - -19.0% in number
 - -22.8% in volume
- -11.0% of rednesses
- -5.5% of texture and imperfections
- +11.2% moisturized skin

● Marionette lines

linefill™ diminishes the marionette lines:

- 19.2% in number.
- 17.9% in volume.

● Lips

linefill™ increases by a **24.8%** the volume of lips.

PLUMPING EFFECT

linefill™ fills all kind of wrinkles, plumps lips and improves the overall skin condition for a rejuvenated appearance

linefill™

All-in-one wrinkle filler and lip plumper

cosmetic applications

- Anti-aging lines
- Eyes and lips contours
- Lip plumpers
- Localized body volumizers (breasts, buttocks, cheeks, etc.)
- Anti-aging hand-treatments
- Complement for firming products

Technical specifications

linefill™ 72150

PROPERTIES	Increases lipid accumulation in adipose tissue, providing more volume to areas that have lost their shape over the years
ACTIVES MOLECULES	Sesamin
APPEARANCE	Transparent Liquid Colorless - Pale Yellow color
SOLUBILITY	Soluble in oil Insoluble in aqueous solutions
RECOMMENDED DOSE	1 - 3 %
INCI	Caprylic/capric triglyceride, dimethyl isosorbide, sesamum indicum seed extract, tocopherol

Formulation

Volumiser Wrinkle Filler

INCI / PCPC	% (w/w)
A Aqua (Water)	71.17
